A digital login form interface. It consists of three horizontal input fields: "Username" with a user icon, "Password" with a lock icon, and a large green "Log in" button. The "Log in" button has white text and a white outline.

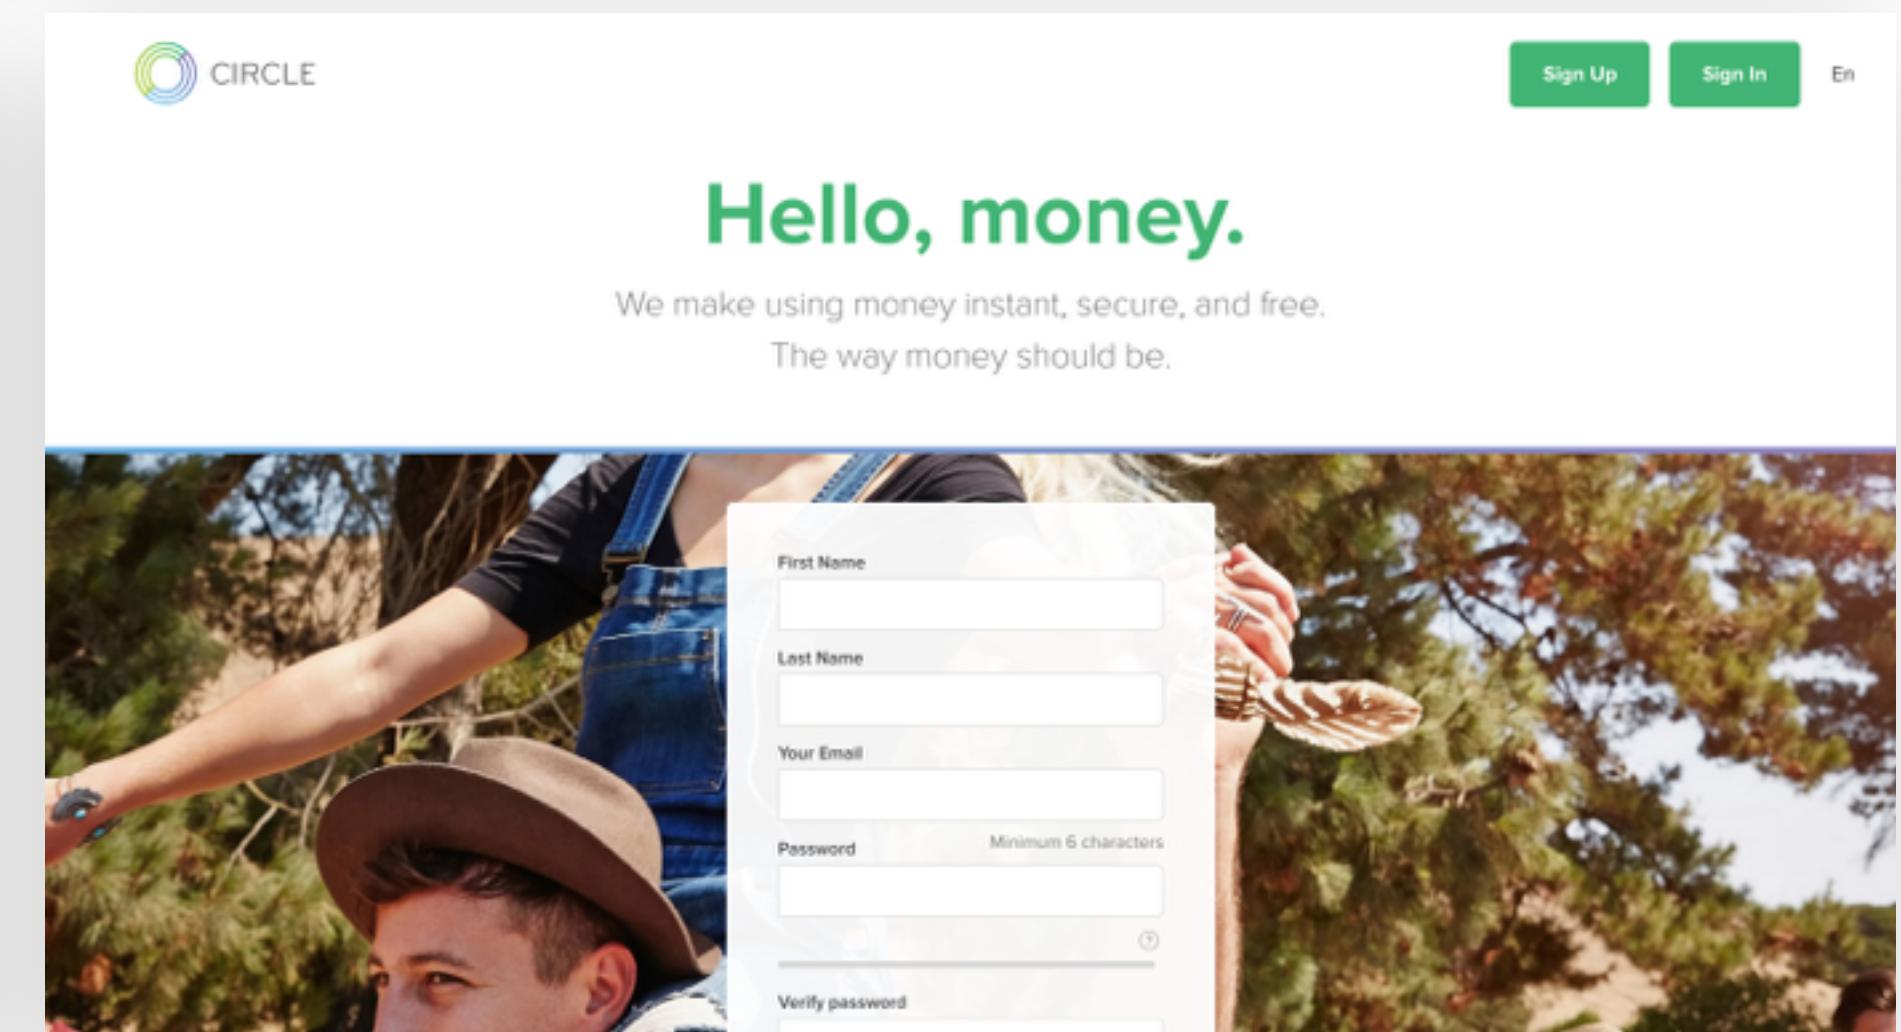

The Saavn homepage features a green gradient background with a portrait of a person wearing headphones. The top navigation bar includes links for 'BLOG' and 'HELP'. Below the header, the slogan 'Here's to the music.' is displayed, followed by the tagline 'Millions of songs, wherever you want, whenever you want.' Two buttons, 'GET THE APP' and 'WEB PLAYER', are shown. The main content area features the text 'Music is who we are.' and a description of Saavn as a revolutionary streaming music service. It includes a screenshot of the mobile app interface showing a play button and song lists.

The Aquest website has a large, scenic background image of hills and vineyards. The header includes a menu icon, the brand name 'A Q', and a search bar. The main title 'CANTINE DI NEGRAR' is prominently displayed in large white letters. Below the title, it says 'AWWARDS SITE OF THE DAY' and 'PWA MOBILE OF THE DAY'. The central content area features a section titled 'DIGITAL DREAMS BY AQUEST' with a subtext about dreams happening online. To the right, there's a sidebar with the text '7MML #storytelling. #website'.

The blu homes website has a dark blue background featuring a modern house at night. The headline reads 'We make crafted, premium prefab homes that are designed to bring the outdoors in.' Below the headline is a large image of a modern house with a deck and a fire pit. A green 'WATCH VIDEO' button is visible. The footer includes links for 'HOMES', 'OUR PROCESS', 'OUR VISION', and contact information.

The Circle website features a large, scenic background image of a person in a hat. The main headline is 'Hello, money.' Below it, the tagline 'We make using money instant, secure, and free. The way money should be.' is displayed. On the right side, there is a sign-up form with fields for 'First Name', 'Last Name', 'Your Email', 'Password' (with a note 'Minimum 6 characters'), and 'Verify password'. The 'Sign Up' button is located at the top right of the form.

Do you have any questions? Please ask them in the course forum, I will be glad to help!

BEAUTIFUL TYPOGRAPHY

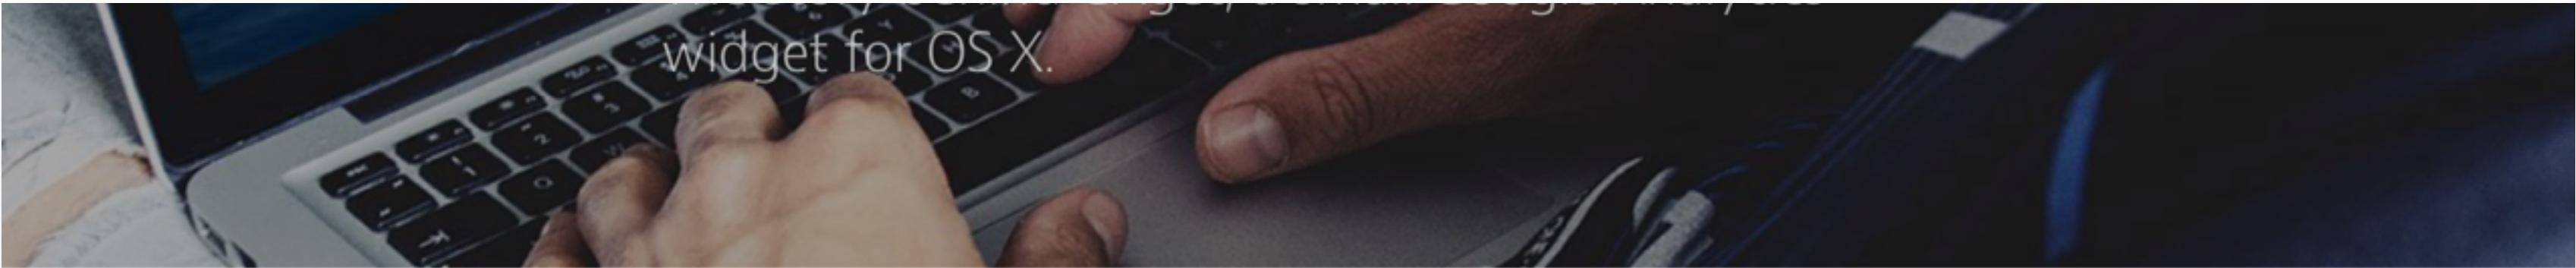

Jonas Schmedtmann

“Typography is the art and technique of arranging type to make written language readable and beautiful.

1. USE A FONT-SIZE BETWEEN 15 AND 25 PIXELS

Okay, I'll be honest with you right away. The title is a little misleading. I started learning Swift 4 months ago and I knew *some* coding before that. But I have never created a native app for any platform. Thinking about it now, I had no idea what I was up against...

GOOD

For you to understand the *how* I did it, first I must tell you the *why*.

Traveling back in time

I always loved computers. My father bought our first machine when I was around 8 years old, and I became hooked in a second. It had a blurry CRT screen and it was running DOS, but it did what *you* wanted it to do. That thing was pure magic for God's sake! Of course I mostly played games on it but I fell in love with the whole environment. I learned about how a PC worked, turned all the knobs and switches in the programs and became the guy others came to for tech-advice.

How I came to write a book

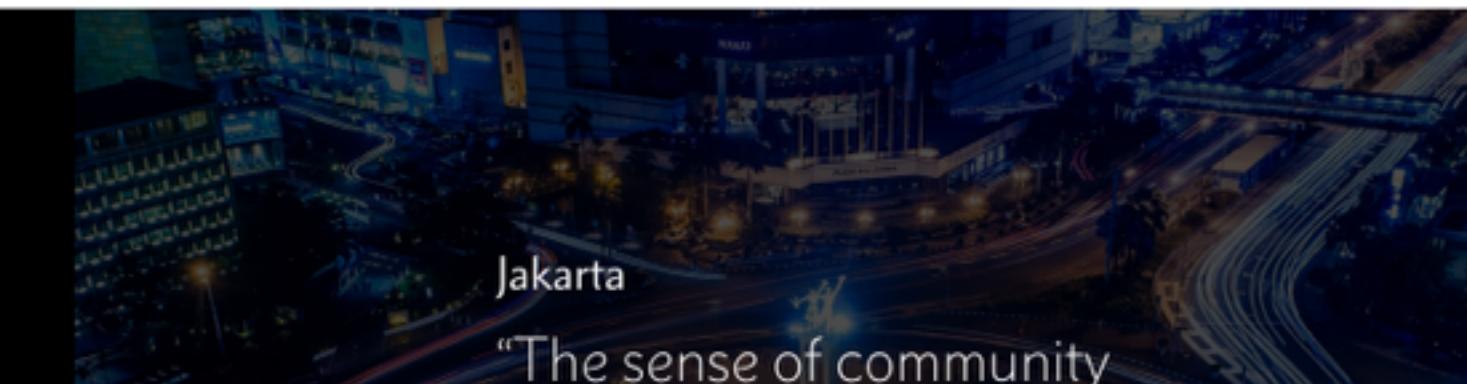

About a year ago, I had to leave the US because of a lack of a degree. For 3 years, I interviewed 4 times and when I finally got in on a J1, a temporary 1 year visa, I applied for a more permanent visa. I had contacted all my previous employers to beg for letters. Despite all that effort, my H1-B got declined. I was left with no other choice but to leave the country.

My dream was crushed. I worked so hard to be where I felt I belonged, with other designers who were passionate about solving problems. It was already a scary thing to work somewhere foreign. So, with nothing to lose, I packed my things and went [traveling](#) around the world.

5. USE GOOD FONTS

HOW TO CHOOSE A FONT?

- 1.** Choose a font which reflects the look and feel you want for your website
- 2.** Decide: sans-serif or serif typeface?
- 3.** Use a good font
- 4.** Use only that one typeface

WORKING WITH ICONS

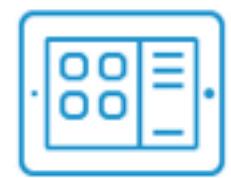

Jonas Schmedtmann

Download free

Square Register is the perfect point-of-sale system, available in the App Store and Google Play. It's designed to run on a smartphone or tablet, on your counter or on the go.

Grow your business

Square Register is the point of sale that takes care of digital receipts, inventory, and sales reports and provides valuable analytics and feedback—so you can focus on your customers.

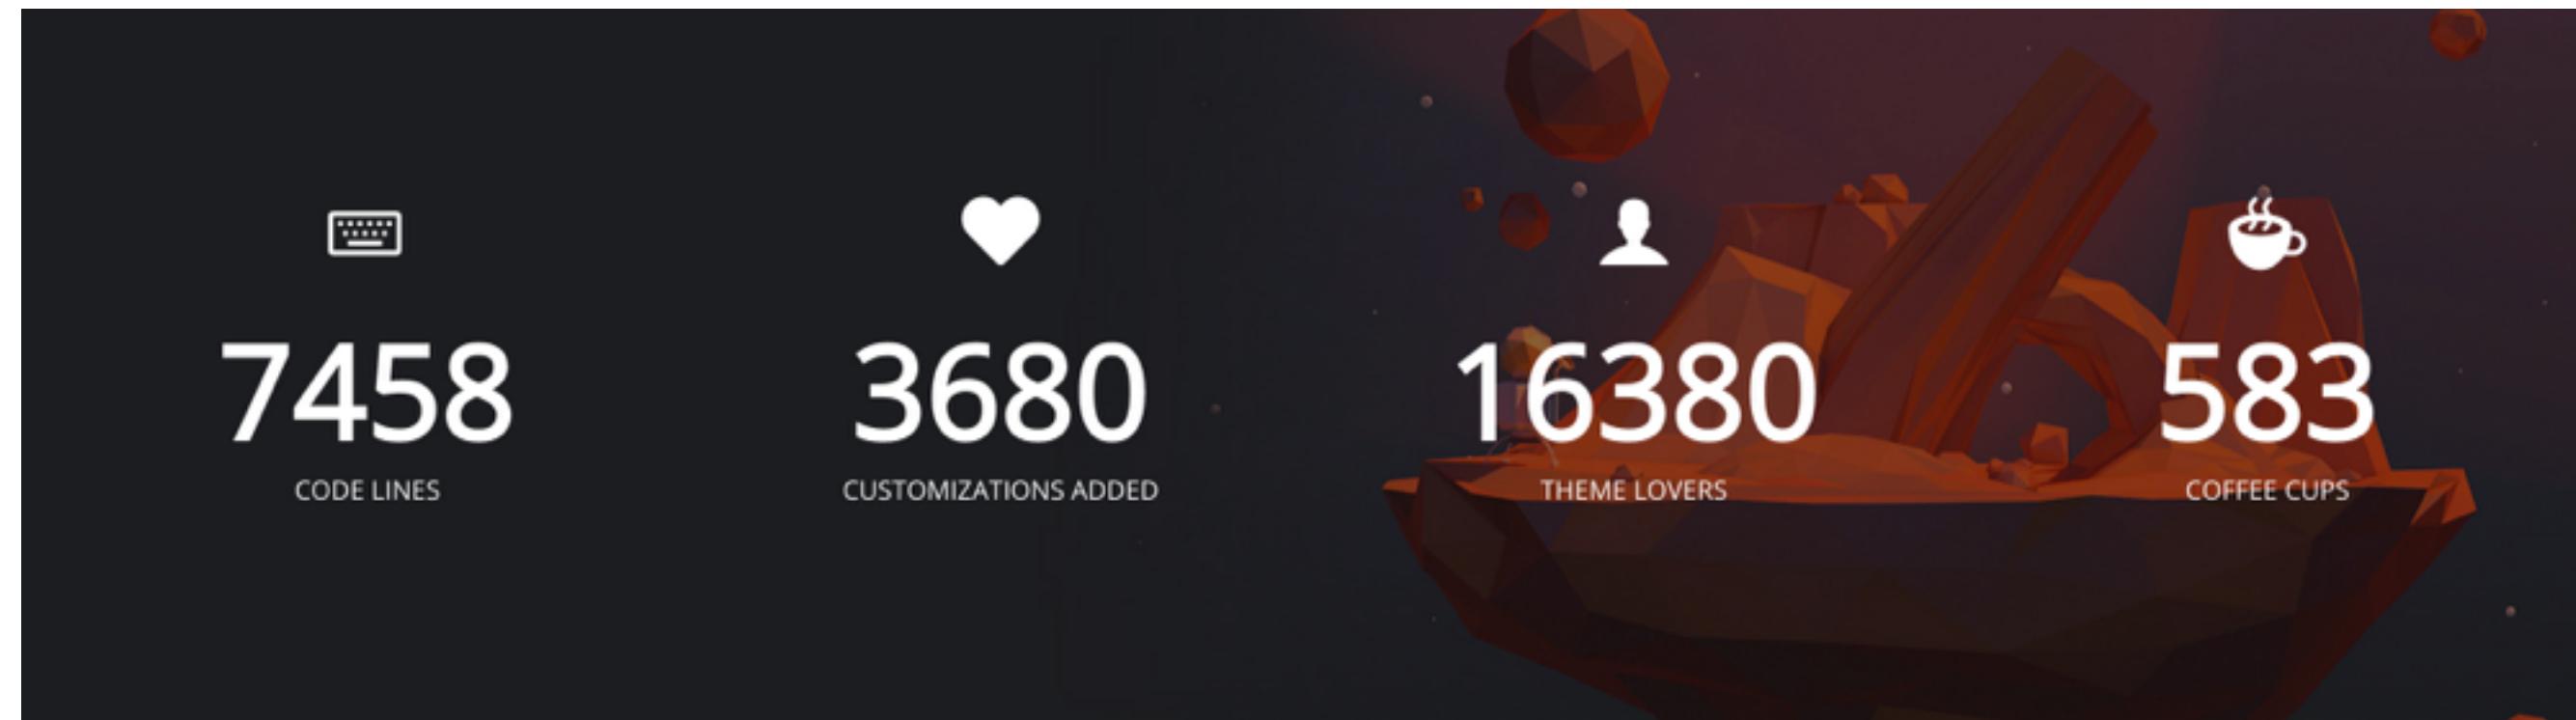

Powerful enough for anyone

Square Register serves businesses big and small, from corner bakeries to retailers around the world. It works with hardware and software accessories that make it easier to run your business.

Upgrades automatically

We're constantly improving with free updates that equip you with great new features to help you run your business more efficiently and effectively.

1. USE ICONS TO LIST FEATURES/STEPS

Portable WiFi

Connect all of your devices, and never hunt for reliable WiFi again. [Learn more >](#)

No-nonsense Pricing

Ditch subscriptions and contracts. Pay only for what you use. [Learn more >](#)

Nationwide coverage

Everywhere you go, the WiFi goes with you. Never miss a beat. [Learn more >](#)

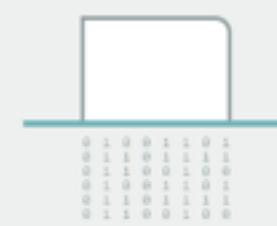

Step 1

Enjoy your new Mod notebook. Fill it in 2 days or 2 years. We'll digitize it when you're ready.

Step 2

Once you've filled your notebook, mail it back to us using the pre-paid shipping envelope hidden in the back cover (shipping included).

Step 3

We scan and digitize it for free within 5 days. Have the notebook recycled or returned to you. It's your choice.

Step 4

Enjoy your notes from anywhere in our beautiful Mod app. Start your next notebook, and let the love continue.

1. USE ICONS TO LIST FEATURES/STEPS

Flexible Taxonomies

Make no mistake. Statamic is anything but static. Relate your content with practically anything.

Full Version Control

Everything, from content to config, can be version controlled. Hello there, peace of mind. How've you been?

Easily Themable

Creating a theme is as easy as zipping up your assets. Design and build it your way, every time.

Powerful Search

Powerful and highly customizable search is made available by our 1st party add-on [Bloodhound](#).

Form Builder

Build forms how you've always imagined, complete with automatic validation & emails. [Check out Raven!](#)

Mapping Made Easy

Craft maps with markers, tooltips, and more with robust tools built right into the core.

Members and Groups

From simple site users to full admins, Statamic lets you set up permissions and control any way you like.

Runs Anywhere

With PHP 5.3 as the only requirement, Statamic can power websites on almost any web server, anywhere.

Endlessly Extendable

Statamic has a robust API and library of hooks available to developers. Make Statamic your own.

Infinite Builder

Infinite Builder will save you tons of time working on content. Now you'll be able to create complex layouts within minutes!

Unlimited Options

Expand the creative capabilities of your Cintiq with an array of compatible pens, grips and pen tips.

Smart And Modern Codes

Bootstrap is the most popular HTML, CSS, and JS framework for developing responsive, mobile first projects on the web.

Amazing Portfolio

Show your design best and easiest possible way with our incredible style portfolio and all their options.

Fully Responsive

Serve an optimised version of the theme to your visitors on tablet and mobile devices. Optimised for iPad and iPhone.

Lifetime Updates & Support

A team to help you in creating your site twenty-four hours a day, tutorials and automatic theme updates.

MANAGE

Automatic list management, custom fields and 100+ ready-to-use integrations make it easy to manage your subscribers.

SEND

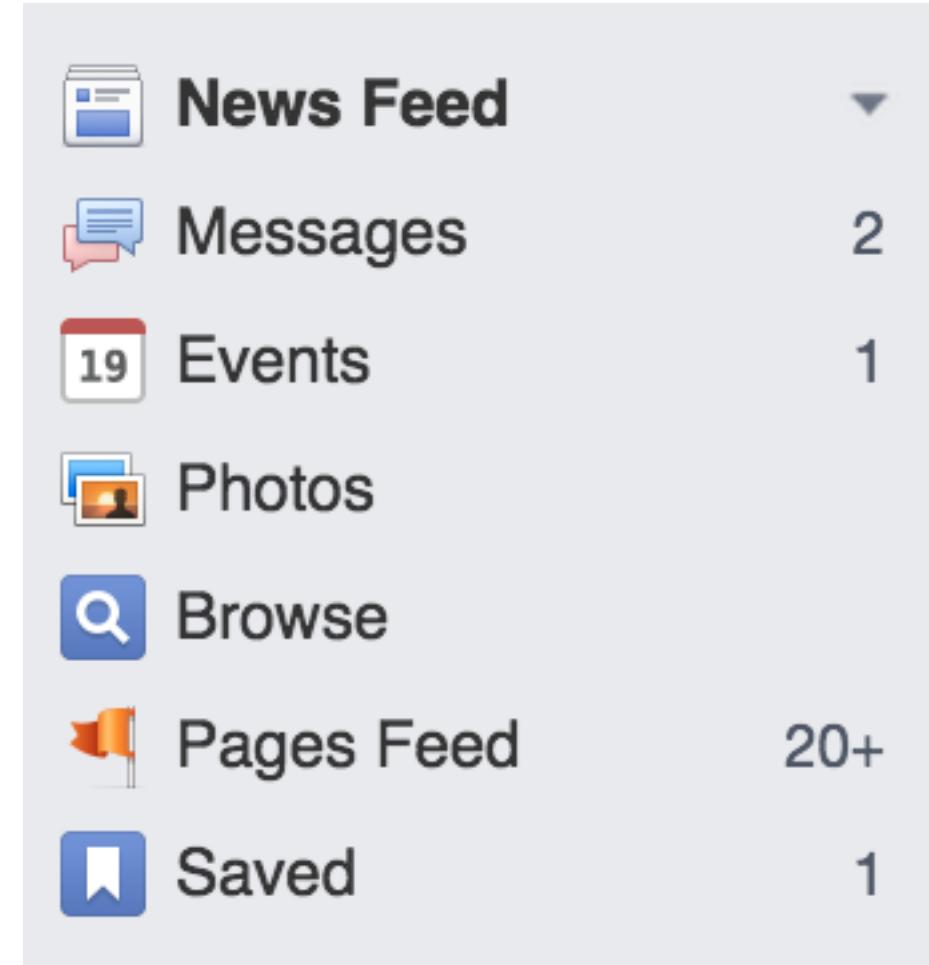

Advanced segmentation and campaign automation features that are straightforward to use? It's almost too good to be true.

OPTIMIZE

Powerful features like flexible A/B testing, dynamic content, and built-in design scanning help you deliver top results.

2. USE ICONS FOR ACTIONS AND LINKS

The interface shows a "What to Watch" section with the following options:

- My Channel** (person icon)
- My Subscriptions** (play button icon)
- History** (hourglass icon)
- Watch Later** (clock icon)

A "PLAYLISTS" section lists:

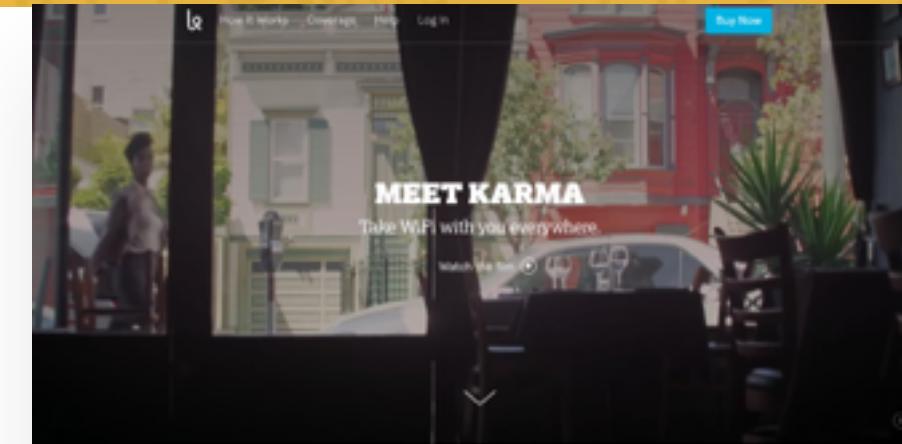

- Web Design Tutorial for...** (list icon)
- Liked videos** (thumb up icon)

A sidebar on the right contains the following links:

- Write a story
- Search icon
- Heartbeat icon
- User profile picture
- New story
- Import story
- Your drafts and stories
- Stats
- Publications
- Your profile
- Settings
- Sign out

Square Register is the perfect point-of-sale system, available in the App Store and Google Play. It's designed to run on a smartphone or tablet, on your counter or on the go.

Grow your business

Square Register is the point of sale that takes care of digital receipts, inventory, and sales reports and provides valuable analytics and feedback—so you can focus on your customers.

Powerful enough for anyone

Square Register serves businesses big and small, from corner bakeries to retailers around the world. It works with hardware and software accessories that make it easier to run your business.

Upgrades automatically

We're constantly improving with free updates that equip you with great new features to help you run your business more efficiently and effectively.

FEATURES

Track your sales in real time.

By recording cash, cards, or any other kinds of payments through Square Register, you can monitor sales trends and create sales reports for the day, month, or year. You can also track and issue refunds.

Tax preparation made easy

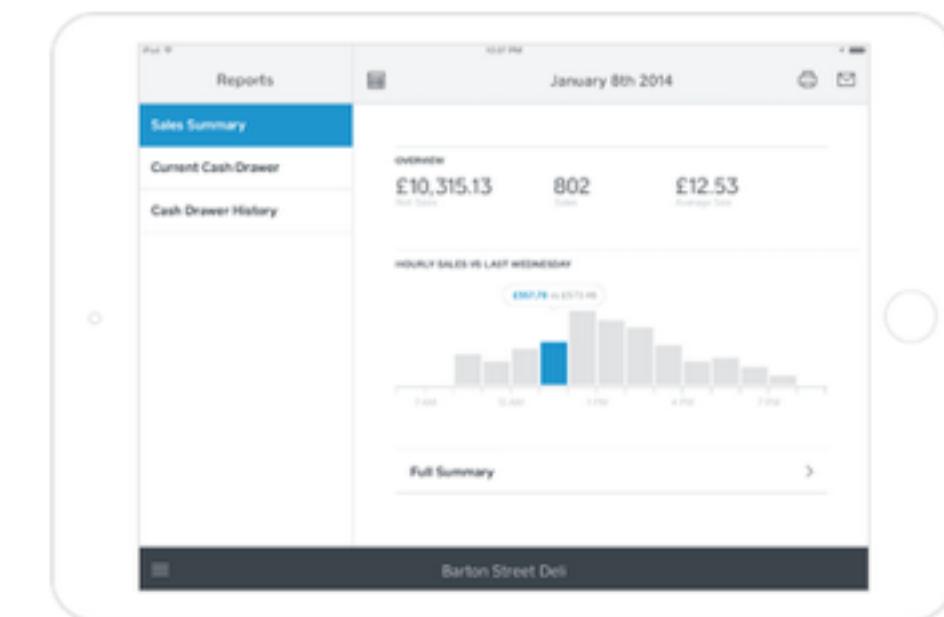

Square Register allows you to instantly populate a spreadsheet with your sales history for tax purposes—which means you don't have to spend nearly as much time preparing for taxes.

Control what information employees see.

With a manager PIN, you can control what your employees can see and do in Square Register on the iPad while logged into the administrative account.

Works offline

Square lets you record transactions even when the internet is down. They'll be stored locally, then automatically sync to your Square account when you're connected again.

Manage your inventory effortlessly.

Now you can manage your inventory free from anywhere. Square Inventory is fast to set up and can send you alerts when items are almost out of stock. You can also export your stock levels as a printable spreadsheet at any time.

Edit items with ease

Manage details like names, quantities, or prices quickly and easily.

Without whitespace

1. USE WHITESPACE

- Put whitespace between your elements
- Put whitespace between your groups of elements
- Put whitespace between you website's sections
- But don't exaggerate

2. DEFINE HIERARCHY

Whitespace describes invisible relationships between the elements of your website

The screenshot shows the homepage of the Square Register website. At the top, there's a banner with a tablet displaying a POS interface. Below the banner are tabs for 'OVERVIEW', 'FEATURES', and 'TESTIMONIALS'. A large red arrow points from the text 'Whitespace describes invisible relationships between the elements of your website' to the 'FEATURES' section. Another red arrow points from the 'FEATURES' section to the 'Set up your counter' section, which features images of a receipt printer, a cash drawer, and a barcode scanner. A third red arrow points from the 'Set up your counter' section to the 'Square works well with others' section at the bottom, which lists partner apps like Stitch Labs, SumAll, and IFTTT.

SQUARE REGISTER
The POS software that's simple, powerful, and free.
Compatible with Apple and Android devices

OVERVIEW FEATURES TESTIMONIALS DOWNLOAD THE APP

Download free Square Register is the perfect point-of-sale system, available in the App Store and Google Play. It's designed to run on a smartphone or tablet, on your computer or on the go.

Show your business Square Register takes care of digital receipts, inventory, and sales reports and provides valuable analytics and feedback so you can focus on your customers.

Powerful enough for anyone Square Register serves businesses big and small, from corner bakers to retailers around the world. It works with hardware and software resources that make it easier to run your business.

Upgrades automatically We're constantly improving with free updates that equip you with great new features to help you run your business more efficiently and effectively.

FEATURES

Track your sales in real time.

By recording cash, cards, or any other kind of payments through Square Register, you can monitor sales trends and create sales reports for the day, month, or year. You can also track and issue refunds.

Tax preparation made easy

Square Register allows you to instantly populate a spreadsheet with your sales history for tax purposes—which means you don't have to spend nearly as much time preparing for taxes.

Control what information employees see.

With a manager PIN, you can control what your employees can see and do in Square Register on the iPad while logged into the administrative account.

Works offline

Square lets you record transactions even when the internet is down. They'll be stored locally, then automatically sync to your Square account when you're connected again.

Learn more

Works on iPhone, iPad, and Android phones and tablets of all sizes and resolutions.

Supports 130 different currencies.

Record full or partial refunds.

Print sales reports on any device.

Square Reader is available in U.S., Canada, and Japan.

Get updates and messages from Square right through your dashboard.

Add tips, tipping, and discounts.

Print kitchen tickets.

Connect a cash-drawer, receipt printer, or bar code scanner.

Payments processing through Square is available in U.S., Canada, and Japan for now.

Set up your counter.

Many accessories work well with Square Register on your phone or tablet.

VIEW COMPATIBLE ACCESSORIES

Square works well with others.

All our partner apps sync with Register in just a few simple steps. Current apps can help track all your inventory or your social channels, and can send emails automatically when major events happen. More partner apps are being added regularly.

Learn more

Stitch Labs
Stitch Labs is an inventory management solution that allows you to easily track stock quantities across Square and the other channels you sell through.

SumAll
SumAll is a business intelligence tool for small and medium sized businesses that connects all the services you use and brings them into one place.

IFTTT
IFTTT lets you create powerful connections with one simple statement... if this then that. Connect Square to over 100 other products and services via IFTTT.

2. DEFINE HIERARCHY

- Define where you want your audience to look first
- Establish a flow that corresponds to your content's message
- Use whitespace to build that flow

SUPER EFFECTIVE WAYS TO IMPROVE YOUR WEBSITE'S CONVERSION

1. BUILD TRUST WITH YOUR FUTURE CUSTOMER

Are you ready to live a Rich Life?

— Ramit Sethi, *New York Times* Best-selling Author

Get the best of my *New York Times* bestseller

Where should I send your free download?

This is a test. I've never put all this content online before. I don't want to cut into book sales, so get it now before I come to my senses and take this down.

Name Email

Get The Best Of My Book Free

100% privacy. No games, no B.S., no spam.

The image shows a man in a dark suit and purple shirt standing next to a book cover for "I Will Teach You To Be Rich Blueprints". The book cover features a small photo of the man and the title in large, bold letters. The background is a dark, textured wall.

2. REPEAT YOUR PRIMARY ACTION

The screenshot shows the homepage of the Invision website. The background features a dark, slightly blurred image of two people working together on a laptop. The top navigation bar includes links for TOUR, CUSTOMERS, NEW FEATURES, ENTERPRISE, BLOG, and LOGIN. A prominent red rectangular button labeled "SIGN UP FREE" is located in the top right corner of the header. Below the header, the main headline reads "DESIGN BETTER. FASTER. TOGETHER." followed by the tagline "The world's leading prototyping, collaboration & workflow platform". A large red-bordered button labeled "GET STARTED – FREE FOREVER!" is centered in the middle of the page. At the bottom, there is a footer row featuring logos for Adobe, Shopify, Salesforce, Twitter, Evernote, adidas, and Huge.

3. GRAB YOUR USER'S ATTENTION

Use these deceptively simple tactics to generate viral traffic and first page rankings
by Brian Dean, founder, BACKLINKO

Make no mistake:

Get 90k Visitors Per Month

Hop on the Backlinko newsletter today and get the exact strategies I used to grow Backlinko to 90k visitors per month.

Your Email

I'M IN!

But you may be thinking: "OK Brian, I get all that. But HOW do I actually do it?".
Let's dig in.

How to Find Keywords Your Competition Doesn't Know About

The content in that ebook was as good — if not better — than anything I've

4. TELL YOUR USER THE BENEFIT

The screenshot shows the Zendesk website's header. It features the Zendesk logo on the left, followed by links for 'Company', 'Cookies Policy', 'English', and a phone number '1-888-670-4887'. Below the header are four main navigation categories: 'PRODUCTS', 'PRICING', 'CUSTOMERS', and 'SUPPORT'.

From now on, things will be better.

Zendesk is software for better customer service.
Get started today with a 30 day risk-free trial.

A login form with two input fields: 'Email' and 'Password', and a large orange 'TRY IT FOR FREE' button.

5. DON'T ASK FOR TOO MUCH INFORMATION

It's nice to meet you! I'd love to send you exclusive content that you can't find anywhere else on the blog, and I'll send you a free copy of my book, eBooks the Smart Way too!

Enter your name and email below, and I'll see you on the inside!
